The Flowers

A love for the British countryside and an appreciation of design, colour and texture give my work an abundant and natural style.

I am committed to using British-grown flowers and foliage throughout the season wherever possible and this, combined with my styling, ensures that my floral designs - from bouquets and buttonholes to floral arches and large-scale installations - are always natural and luxurious.

The Design Process

Every love story is unique, and your wedding flowers should reflect that beautifully.

Our design journey begins with a friendly and down to earth consultation, where we'll meet to discuss your dreams and ideas.

We'll collaborate together to craft a bespoke floral design that truly captures the essence of your special day, bringing your vision to life with elegance and grace.

The Design Process

Together we'll design timeless, romantic and abundant florals.

Whether that's elegant table arrangements in a grand priory, floral chandeliers in a marquee or a banqueting hall transformed into an enchanted woodland, each design will feel perfectly suited to you and your dream day.

The Service

I provide a full floral service which typically includes:

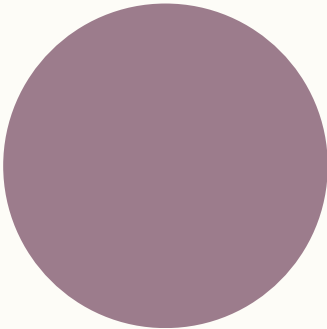

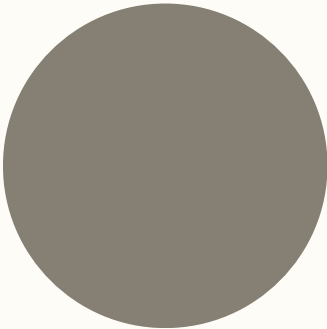

- 1 An initial consultation where we will discuss your style, colours, favourite flowers and the impression you would like your flowers to create on the day.
- 2 A detailed proposal for your flowers, including a mood board, sample images and bespoke designs.
- 3 The bridal party flowers; bouquets and buttonholes.
- 4 Ceremony and reception flowers; anything from pew ends to large-scale installations.
- 5 Prop hire, delivery, set-up, styling and collection after the event.

For this reason, I don't impose a minimum spend and I always recommend that we meet for a complementary consultation to discuss your vision and your budget so that I can tailor this to your requirements.
